

2001 Bethel Directory

We are finally into a new millennium, by anyone's reckoning, so it must be time for Bethel to publish another directory...Seriously, we really are beginning to work on putting together an updated directory for Bethel. The most recent directories have been simple listings of names, addresses, phone numbers etc. The last "pictorial directory" for Bethel (and the only one that we know of) was produced "way back" in 1994 so we intend to make this a pictorial directory as well. While a project like this has traditionally been undertaken by a company that is in the business of producing directories as a service and selling pictures as a business, the recent advancements in digital photography and desktop publishing make it reasonable to accomplish the task entirely within the local church. Bethel members Phill Brown and Tom Moore will be the coordinators (and photographers) for the project, but the most important contributor to the effort will be YOU, because the task can't be considered a success without your (correctly spelled) name, address, contact information and photo.

To assist in this effort, we ask that you send us the information shown at the bottom of this page and schedule a time when you would be able to have your individual or family picture taken for the directory. We have asked for you to choose from several time periods when we will be set up to take pictures in Bethel's fellowship hall. We will contact you about a specific time at least one week before the photo session. If none of these is possible for you, then indicate on the form when you would be available and we will try to accommodate you. We would also be willing to come to your home to take the photo if you are unable to travel to the church.

As we are not using the services of a professional photographer, there will be no offers of photo packages for purchase. However we will give each of you a diskette with digital copies of your photos which you can print yourself or have printed through a local photo service.

We hope to have the directory completed by the first of July. We will provide copies to each of you at that time. To minimize the cost to the church, these will probably be prepared in black & white on our copier. We will also determine the cost of having the directory printed in color and offer those, at cost, if there is sufficient interest.

We hope that you are as excited as we are about this opportunity to produce a directory which will serve both as a tool for maintaining contacts among the congregation and as an historical record of the people who *are* Bethel church at this point in time.
